CITY NEWS & ACTIVITIES

A Publication of The City of Morgan Hill | Fall 2004

New Look, New Name . . .

Welcome to *City Connection!*

With valuable information about City of Morgan Hill services, activities, programs, classes and events, *City Connection* has something for everyone. If you'd like to stretch your limbs or your mind at the Community and Cultural Center, look inside. If you want to cool down - or tone up - at the new Aquatic Center, look inside. If you're wondering what's new with your City government, look inside.

You'll also find the Community Events Calendar and contact information for city officials and services.

City Connection will be sent to you five times a year, with four seasonal editions and a special edition in June. In order to serve you more cost-effectively, City Connection replaces the *City Visions* monthly newsletter and the Recreation Guide mailed to most residents.

We welcome your feedback on City Connection - call Editor Melissa Stevenson Dile at (408) 779-7271 or drop an e-mail to dilem@morgan-hill.ca.gov.

Look inside!

It's ALL inside!

Safe Cycling

Rules of the Road for Riding Your Bike, Pocket Bike or Mini-Motorcycle

This is a great time of year for getting out on your bike, and it's always a good time to remember the rules of the road. And, if you ride one of the popular new pocket bikes or mini motorcycles, you need to know about special safety requirements. The Morgan Hill Police Department and other agencies are enforcing these requirements, and we don't want you to be surprised - or unprotected.

If you are riding a bicycle

- If you are under 18 years of age, you are required to wear a bicycle helmet when riding on a public street
- You must obey the rules of the road (i.e. stop signs and riding on the right side of the roadway)
- During darkness, your bicycle must have a headlamp visible for 300 feet from the front and a rear reflector visible for 500 feet from the rear

If you are riding a pocket bike

There are several laws governing the use of pocket bikes. Here is a partial list:

- A gasoline-powered pocket bike is a motor driven cycle pursuant to section 405 of the vehicle code, so it is subject to all vehicle equipment, registration, proper motorcycle driver's license endorsement, and helmet requirements
- An electric-powered pocket bike is a motorized bicycle pursuant to section 406 of the vehicle code, so it is subject to all vehicle equipment, proper driver's license endorsement, and helmet requirements
- Individuals operating these vehicles on a highway may be cited for a violation of 24002(b) CVC (vehicle not equipped as required by the California vehicle code)

However you get around town, your safety is our goal. Contact us with any questions about riding your bike, pocket bike or mini-motorcycle.

ANNUAL SOUTH COUNTY GARAGE SALE COMING IN SEPTEMBER 2004

Promote the idea of reuse, conserve landfill space and avoid wasting valuable resources - have a garage sale! Morgan Hill, Gilroy and South Santa Clara County are celebrating their commitment to reducing waste by sponsoring South County Garage Sale Days on Saturday and Sunday, September 11th and 12th.

You provide the garage. You keep the cash. Clean out your closets and empty the attic! We will provide free advertising and free garage sale kits. These kits include tips for a successful sale, inventory sheets and a list of organizations who will accept donations of usable items. (You may want to check with your Home Owners Association, if applicable, to make sure you can have a garage sale.) For more information, contact the City of Morgan Hill Environmental Programs Division at 779-7247 or by email at andib@morgan-hill.ca.gov

Paper. Pencils. Ruler. Backpack ... AND LIBRARY CARD!

*Children Earn Prizes for Getting a
New Library Card And Using It*

When you start getting your school supplies ready for the new school year, don't forget the most important item of all: a library card. With your free library card, you can check out non-fiction books to help with homework, find fiction books for book reports, and discover lots of books to read just for fun. And, you can use online encyclopedias and other databases to search magazine and newspaper articles.

In September, thanks to a generous grant from Mervyn's/Target, the Morgan Hill Library will kick off a community-wide library card campaign. Our goal is to reach every child in Kindergarten through Grade 3 and invite them to get a library card. Children who don't have a card will receive prizes for getting a card at the library. And children who already have a card will receive prizes for checking out books. There will also be special games and programs to help children learn to use the library.

Working with public and private schools and homeschooling groups, Morgan Hill librarians hope to make it easier than ever for children to get a library card and to introduce children to the wonders that can be found at the library.

The library card campaign will be followed by a series of programs in October and November to encourage families to visit the library together. We will be celebrating reading and the love of literature with special puppet shows, storytellers, and musical programs.

Working together, we can build a community of readers!

How the New City Budget Affects You

In adopting the City's 2004/05 budget, the City Council has approved nearly \$1 million in budget cuts. These cuts are necessary to bring City spending into line with City resources.

Though the cost reductions were carefully reviewed in order to minimize the effect on public services, you will see changes. This document is a good example: to save production costs we have combined the *City Visions* newsletter with the Recreation Guide. In addition, the annual recycling calendar has been eliminated. Park maintenance costs have been reduced by eliminating two positions and reducing water usage; over time, the fringe areas of parks will have a more natural appearance. Two and a half Police Department positions have been eliminated. Recreation staff and operating hours at the Community and Cultural Center have been reduced, and less-popular after-school programs eliminated.

These cuts are part of a multi-year budget strategy that includes using reserves in the short-term. Longer-term, increased revenues are necessary: the Council expects to raise \$800,000 in Fiscal Year 2005/06, followed by an additional \$400,000 in Fiscal Year 2006/07. The City Council currently is considering local taxes and fees to generate the needed revenue.

The local economic downturn and the continued shift of local revenues to the State have both impacted the City's finances. To review the full adopted Fiscal Year 2004/05 Budget and the City Manager's Guide to Developing a Sustainable Budget Strategy, visit the City's website at www.morgan-hill.ca.gov.

Morgan Hill Rotary's Community Project is Coming Up Roses!

Thanks to the hard work of the Morgan Hill Rotary club, there is a great new feature at the Community and Cultural Center - an attractive new fence around the Community and Cultural Center Rose Garden.

The newly-enclosed area provides 4,500 square feet of space that may be used by community members and users of the Center. The fence is built in the same design and color as the neighboring Children's Playground enclosure, making it look as though it was always there. We encourage you to come and enjoy the fragrant roses and the quiet contemplation space. If you are renting the Hiram Morgan Hill Room you may expand your party numbers by using the Rose Garden area.

Volunteer Rotarians worked in shifts on weekday evenings and Saturdays to build new fencing and screening for the area. Thank you Morgan Hill Rotary!

Signing and Striping for Bikeways

On Some Major City Streets

With a \$70,000 State grant in hand, the Public Works Department is designing signs and road striping for bikeways on portions of three of Morgan Hill's major streets. The bikeways will be along Monterey Road (between Main and Cochrane) and along Butterfield Boulevard (from Cochrane to Main). The work will also include a portion of Cochrane Road between Sutter Boulevard and Monterey Road.

Project manager David Gittleson - an avid cyclist who occasionally makes the 18-mile bike ride in to work from his home in San Jose - states that he looks forward to the opportunity to "help make Morgan Hill a more bike-friendly community for bicyclists to travel to work, school, errands, and fun."

The grant application, which Gittleson researched and prepared, states: "The proposed bikeway improvements are intended to provide continuity with existing bike lanes and to encourage local and regional cyclists to use them. With the proposed class II bikeways project, cyclists will now have safer routes to the Madrone Business Park, Caltrain station, bus stops, schools, Community Center and downtown shops."

Turf Reduction Program

*Concentrates reduced parks resources on
high-use areas*

Faced with the reality of reduced resources, the Parks Division has implemented a plan that helps stretch already limited budget funds a bit further. Through a “turf reduction program” the Parks Division will eliminate watering in selected sections of various parks in order that normal watering of high use areas and ball fields can continue uninterrupted.

“It’s a way that we can still maintain the attractiveness of highly visible, highly used areas of our parks so that residents can still enjoy these areas,” says Parks Division supervisor, Glenn Lyles. “Some low-use areas will be allowed to dry out so that other higher priority areas can keep their well-maintained look. We really regret that we have to take this step, but we hope that the public will understand that the sooner we start, the quicker we can stop the flow of valuable, limited resources to lower-priority areas.”

The community’s parks are enjoyed by many families, children, teens and adults, and used extensively, especially during the summer months. Keeping parks in top shape has long been a trademark for Morgan Hill. This turf reduction plan is necessitated by reductions in General Fund expenditures throughout the city. City parks maintenance is funded primarily through revenues that come into the city’s General Fund. Revenues have been lower during the past two years due to weak economic conditions in the Silicon Valley, as well as throughout California. Another significant impact has come from the budget balancing process in the State’s capital. Decisions made in Sacramento impact California’s cities as monies that cities have come to traditionally count on are diverted to other purposes.

Since the reduction in revenues is not anticipated to be temporary, a long term approach to park maintenance was needed so that the Parks Division could concentrate its remaining resources on ball fields and high use public areas. Park areas primarily used for passive or aesthetic purposes will be designated as “fringe areas.” Fringe areas will still be usable but will not be maintained in turf. Watering in the fringe areas will only be at a level to support tree and shrub growth. Eventually turf in fringe areas will be replaced with wood chips to preserve moisture for trees and reduce weed growth.

At this time parks that fall under the fringe area turf reduction program are: Community Park, Galvan Park, Nordstrom Park, Jackson Park, Diana Park, and Paradise Park. In addition to City parks, areas within the Civic Center complex will also fall under the program. See the City’s web site at www.morgan-hill.ca.gov for an illustration of the designated fringe areas for each park.

AQUATICS CENTER PROGRAM GUIDE

Group Swim Lessons

A wide variety of professional group swim lesson programs are available throughout the summer. These include Parent/Tot, Preschool, Progressive Level, and Teen/Adult programs. All programs are divided into different skill levels designed to group persons of similar age and skill levels and meet Red Cross standards. Personal attention is emphasized as most classes will have 4 to 9 students per instructor.

PARENT//TOT PROGRAM:

For parents and infants or toddlers ages 6 months to 3 years. Parent/guardian participation in the water is required.

"Cuttle Fish":

This program is designed to teach children how to become accustomed to the water through playful interaction and games. Parents learn about aquatic safety for children. These lessons take place in the zero-depth entry recreational pool specifically designed for children to overcome any fear and progressively become accustomed to the water at various depths. Parents must accompany children in the water and children must wear swim diapers which can be purchased at the AQUATIC CENTER. This class does not teach children to be accomplished swimmers or to survive in the water by themselves.

PRESCHOOL PROGRAM:

For children between the ages of 3 to 5 years.

This program teaches swimming skills in several levels. There are several options in this program that allow pre-school children to continue their progress in swimming. As children become proficient at each level, they progress to the next level. The levels allow for further advancement while keeping children in classes with their peers. Children may begin at any level that best matches their swimming proficiency.

"Clown Fish" Level I:

This level focuses on water adjustment through games and playful interaction. There is no formal introduction to swimming strokes but rather is designed to develop a comfort level in the water that will prepare the child to learn how to swim. Parent participation in the water is optional but the child must be able to take direction from the instructor if the parent does not participate. These lessons take place in the instructional pool and zero-depth entry recreational pool specifically designed for children to overcome any fear and progressively become accustomed to the water at various depths.

"Jelly Fish" Level II:

This level is for children who have already been introduced to the water and are comfortable enough in the water to begin to learn the basics of swimming. Instruction focuses on supported floating and beginning arm movements as well as rhythmic bobbing. Parent participation in the water is discouraged. These lessons take place in the instructional pool.

"Balloon Fish" Level III:

Children enrolled in Level III must be able to perform Level II skills without instructor assistance. Unsupported floating and gliding as well as front and back crawl arm movements are taught. Also personal safety skills are introduced. These lessons will be taught in the instructional pool.

"Flying Fish" Level IV:

This class is designed for those who have mastered the skills taught in levels I through III. Elementary backstroke is introduced and children become accustomed with bobbing to safety, treading water and swimming in deeper water. Diving from the side of the pool is introduced. These classes are taught in the instructional pool and competition pool. Pre-school children who successfully complete this level should have the skills to begin the Children's Progressive Program at "Pelican" Level III.

PROGRESSIVE LEVEL PROGRAM:

For children between the ages of 6 to 13 years.

This program teaches a variety of swimming skills from beginner to more advanced principles. Each level builds upon those skills taught in the previous levels. Parents may enroll children at any level for which they have adequate skills.

"Sea Turtle" Level I:

This is a beginning swim class which teaches water exploration and primary swim skills. It is designed for various levels of beginner swimmers with little or no water experience. Swimmers will learn to follow basic water safety rules; use a lifejacket; submerge mouth, nose and eyes; float on front and back; open eyes underwater and pick up submerged object; swim on front and back using arm and leg actions; enter and exit water safely; exhale underwater through mouth and nose; explore arm and hand movements. Classes will be held in the instructional pool.

"Sting Ray" Level II:

This class is designed for swimmers who have those skills taught in "Sea Turtle" Level I. This level will build on Level I skills and include moving in the water while wearing a life jacket; submerging entire head; front and back glide; treading water using arm and leg motions; recognizing a swimmer in distress and getting help; bobbing in water; jellyfish float; swimming using combined stroke on front and back. Classes will be held in the instructional pool.

"Pelican" Level III:

Basic skills are built upon including reaching assist; submerging and retrieving an object; front and back glide; front and back crawl; kneeling and standing dive (shallow dive progression); rotary breathing in horizontal position; survival float on back; butterfly kick and body motion. Classes will be held in the instructional pool and the competition pool.

"Platypus" Level IV:

This class is for children who have learned, but not mastered level III skills. Emphasis will be placed on safe diving rules; diving from stride position or shallow dive; survival float on back; elementary backstroke, breaststroke, butterfly; throwing assist; feet-first surface dive; front and back crawl. Classes will be held in the instructional pool and the competition pool.

"Crocodile" Level V:

Students should have been introduced to all four competitive strokes (butterfly, backstroke, breaststroke, front crawl) and elementary backstroke by this level. Further coordination would include sidestroke; survival swimming; standing dive (diving progression); open turns on front and back; performing rescue breathing; tuck surface dive and pike surface dive; front flip turn and backstroke flip turn. Classes will be held in the instructional pool and the competition pool.

"Great White" Level VI:

The purpose of this level is to refine the strokes so students swim them with ease, efficiency, power and smoothness over greater distances. This class requires a higher level of proficiency and endurance in each of the strokes taught at previous levels. Classes will be held in the instructional pool and the competition pool.

Swim Conditioning Class:

For students who have passed Great White Level VI and want to continue swimming post lessons. This class is designed to prepare participants who aren't ready for competitive swimming by introducing them to a basic swim team structure. These participants will also have an opportunity to meet local coaches and gather information about the local swim teams and clubs.

TEEN/ADULT SWIMMING INSTRUCTION:

For anyone age 14 or older.

These classes are designed for teens and adults who desire to learn to swim. Teen/Adult classes are able to be tailored more toward the individual's skill level using adult learning techniques.

Teen/Adult Beginner:

For teens and adults who do not know how to swim but want to learn. Emphasis is placed on water safety and basic swimming strokes such as treading water and front and back crawl coordination. Classes are paced to the individual's skill level. Classes will be held in the instructional pool and the competition pool.

Teen/Adult Advanced:

For teens and adults who have learned the basics of front and back crawl coordination and would like to learn more advanced techniques, such as breaststroke, sidestroke, butterfly and diving. Classes are paced to the individual's skill level. Classes will be held in the instructional pool and the competition pool.

New center programs...

AQUA TOTS

Want to bring your young children down to enjoy the center when it is a little quieter? Then this program is for you!! Aqua Tots is a time for parents to enjoy the facility with their young children but without the noise of a normal recreation swim time. Aquatics Center staff will make our swimming lesson toys available for your use during this special program time. We may even play fun children's music from time to time. This program will be held in the recreational pool and the spray structure will be on. This is a parent led activity and there is not an assigned instructor.

AQUA TOTS will be offered on Friday mornings in two sessions:

Session 1:
Friday, September 10th - Friday, October 1st
Activity #: 4321.2137

Session 2:
Friday, October 8th - Friday, October 29th
Activity #: 4321.2225

Time: 9:45AM - 11:15AM
\$44 per session

Children must be 6 years of age or younger to participate in this program and there can be no more than 2 children per adult (16 years of age or older). Children must be closely supervised by the adult escort at all times.
Each child must be registered to participate.

Coming Soon:

WETBALL

Wetball is coming to the aquatics center. Wetball is a fun introduction to the sport of water polo and requires minimal swimming ability. Wetball is taught in water 3-4 feet deep and is for young children. Please keep an eye out for further information on this great program and call us to have your name put on the Wetball list.

SCUBA at The Center

We are currently putting together a SCUBA program and hope to be offering classes by the mid September / October timeframe. We are currently taking an interest list so call us to have your name placed on the list if you are interested in taking a SCUBA class.

KAYAKING at The Center

We are also putting together an interest list of people who would be interested in taking a Kayaking classes of various levels in our pools. Please add your name to this interest list if you would like to see this type of a program offered here.

NEW PROGRAM IDEAS?

Please let us know if you have new program ideas you would like to offer in our facility.
